Canadian Accredited Insurance Broker (CAIB) Designations

Brownridge & Company Insurance is proud to announce that two of our Personal Insurance Representatives have recently obtained their CAIB designations. Kristie Forrest & Darlene Hrabchuk both successfully completed their fourth and final CAIB exam this winter and have now obtained their certifications.

The Canadian Accredited Insurance Broker (CAIB) program is a national designation designed by the Insurance Brokers Association of Canada (IBAC). Expanding greatly on the basic insurance licensing program (The Fundamentals of Insurance), the CAIB program acquaints brokers more fully with the major issues of the industry. This includes in-depth studies in the areas of residential coverage, commercial property, commercial liability, and brokerage management.

We congratulate both Kristie and Darlene on an accomplishment they can both be very proud of. This is a perfect example of the commitment to excellence shared by all of the insurance professionals at Brownridge & Company.
